LIMITED WARRANTY
Greenlam Splendor products are manufactured in strict accordance with applicable quality standards and specifications. However, the installation methods, site conditions, and application practices are beyond our direct control and responsibility. The values given above are to the best of knowledge but without liability/warranty, expressed or implied. The company warrants to the original purchaser that Greenlam Splendor High Pressure Laminates (HPL) will be free from manufacturing defects under normal, intended, and proper use, within accepted manufacturing tolerances, for a period of twelve (12) months from the date of purchase. Any claim raised after the expiry of this period shall be deemed invalid and will not be entertained.

CHANGE OF SPECIFICATION
The company reserves the right to change specifications at any time without prior notice. It is recommended that you request actual samples prior to specification.

CARE & MAINTENANCE

Splendor Laminates are crafted to deliver enduring beauty and reliable performance in every environment. While they are engineered to withstand the demands of everyday life, a few simple care practices will help preserve their finish, maintain their elegance and ensure they continue to look their best for years to come.

CARE

Everyday Cleaning

A soft cloth or sponge is all you need for routine cleaning. For everyday stains, wipe the surface with clean water or a mild household cleaner to restore its original finish.

Stubborn Stains

For tougher marks, use a non-abrasive household detergent and gently clean the surface. Always rinse with clean water and wipe dry using a soft, lint-free cloth.

Lasting Finish

Promptly cleaning spills and drying the surface after use helps preserve the laminate's appearance and keeps it looking as refined as the day it was installed.

PRECAUTIONS

Harsh Chemicals

Avoid abrasive cleaners, bleach, strong acids or highly alkaline solutions, as these may affect the decorative surface.

Heat

Do not place hot cookware or heat-generating appliances directly on the laminate. Always use a protective trivet or heat-resistant pad.

Sharp Objects

Avoid cutting, chopping or dragging sharp objects directly across the surface. Always use a cutting board to protect the laminate.

Moisture

Although built for everyday use, prolonged exposure to standing water or excessive moisture, particularly around joints and edges, should be avoided.

Impact

While Greenlam Splendor Laminates are highly durable, avoid striking the surface with heavy or sharp objects that may cause damage.
